FOR IMMEDIATE RELEASE

## Gfp Introduces New 63” Production Laminator with “Smart Finishing Technology”

Maryland Heights, MO, April 2, 2021 –In keeping with its commitment to efficient, operator-friendly, and cost-effective print finishing, Graphic Finishing Partners LLC (Gfp) has introduced its most advanced production laminator yet: the **Gfp 663TH Production Top Heat Laminator** with “**Smart Finishing Technology**”.

The key to the performance of the 663TH is its digital micro-processing system. All machine functions are controlled, maximized and monitored by a **Touchscreen Microcontroller** that is accessed through a 10” LED Display. This reduces errors, maintains production quality and enhances productivity and repeatability. Operators especially appreciate the user-friendly full color display.

Colorful graphic screens display machine status, operating parameters, fine-tuning adjustments and calibrations. They also provide alerts to excessive film tension in time to correct it. And to build operator proficiency and confidence, machine tutorials can also be viewed on the screen.

Other labor-saving features include 1) electric servo motor for roller gap positioning, and roller pressure, 2) motorized integrated rear rewind for uninterrupted roll-to-roll production, 3) three swing-out film shafts for faster set-ups, 4) inline rotary slitters, and 5) built-in roll label printer for labeling partial film rolls.

For more information about the Gfp 663TH Production Laminator and its availability, contact Rob Acker: [roba@gfpartnersllc.com](mailto:roba@gfpartnersllc.com). Or visit the Gfp Virtual Showroom from the company’s website: [www.gfpartnersllc.com](http://www.gfpartnersllc.com).

### **About Graphic Finishing Partners LLC (Gfp)**

Graphic Finishing Partners LLC (Gfp) opened its doors in 2009 in response to the growing need for more affordable, yet high quality, print finishing equipment and supplies. Its mission is to provide finishing shops with the tools they need to produce profitable results while helping them keep their costs down. Gfp offers lamination equipment and supplies through dealers nationwide. [www.gfpartnersllc.com](http://www.gfpartnersllc.com).
