FOR IMMEDIATE RELEASE

Gfp Replaces its FT60 with the FT48 and brings over 20% savings to Print Finishing Shops

Maryland Heights, MO, June 1, 2021 – Graphic Finishing Partners LLC (Gfp) announces that the new FT48 Finishing Table will replace the FT 60 model to lower the cost of feeding mounting boards and trimming sign graphics.

"Product evolution coupled with customer feedback, showed us that the backlight feature of the FT 60 Finishing Table was rarely used and didn't warrant the added costs," says Gfp General Manager, Rob Acker. "Removing the backlighting, and the electronics and structure needed to support it, means our customers get more than a 20% reduction in finishing table cost without sacrificing critical functions."

The FT48 looks and functions the same as the FT60, allowing users to turn any roll laminator into a sign making, flatbed applicator, but now at a fraction of the cost. The Gfp FT48 Finishing Table provides effortless feeding of mounting boards into a laminator along with a generous workspace for trimming graphics. Then to keep the laminator accessible when not mounting and trimming, the table folds up 90° and rolls out of the way.

Preview the FT 48 Finishing Table and all Gfp products at the new Gfp Virtual Showroom by visiting www.gfpartnersllc.com and clicking on the Showroom banner. You'll be transported to our Virtual Showroom where you can access videos on Gfp products and applications.

About Graphic Finishing Partners LLC (Gfp)

Graphic Finishing Partners LLC (Gfp) opened its doors in 2009 in response to the growing need for more affordable, yet high quality, print finishing equipment and supplies. Its mission is to provide finishing shops with the tools they need to produce profitable results while helping them keep their costs down. Gfp offers lamination equipment and supplies through dealers nationwide. www.gfpartnersllc.com
